Objective

Motivated Full-Stack Developer skilled in PHP, Laravel, React, HTML, CSS, and JavaScript, with a strong ability to create fully functional, user-centric websites. Equipped with the logic and problem-solving mindset to bring real-world projects to life, unconstrained by specific languages. Eager to contribute to impactful projects within a dynamic tech environment while advancing my professional expertise.

Technical Skills

- **Web Development:** Full-stack development (Frontend & Backend)
 - **Database:** MySQL
 - **Cloud Computing:** AWS (Basic)
 - **Quality Assurance (QA):** Intermediate skills in manual testing to ensure website functionality and user experience
-

Experience

Fit-Me project [Fit-Me Project](#)

- **Description:** Contributed to the development of a fitness website providing workout plans and health tips.
- **Responsibilities:** My role (developer) Built interactive frontend features using HTML, CSS, and JavaScript, managed user data with local storage, and integrated APIs for fetching fitness data.
- **Key Technologies:** HTML, CSS, JavaScript, Local Storage, API Integration

Waggy Shop project [Waggy Project](#)

- **Description:** Led the development of a pet care and adoption platform where users can adopt pets, browse pet products, and access care resources.

- **Responsibilities:** My role (product owner) Defined the product vision, coordinated feature development with the team, prioritized project tasks, and ensured alignment with user needs and business goals.
 - **Key Technologies:** HTML, CSS, JavaScript, PHP, SQL, Bootstrap.
-

Skills & Abilities

- **Management:** Experience leading project initiatives and collaborating with teams
 - **Adaptability:** Quick learner, adaptable to changing technologies
 - **Time Management:** Strong organizational skills, meeting deadlines efficiently
 - **Team Collaboration:** Excellent communication, fostering teamwork
 - **Agile Methodology:** Knowledge of Agile principles for project management
 - **Problem Solving & Analytical Skills:** ability to identify and resolve issues
 - **Data Structures & Algorithms:** Practical experience with core concepts
-

Education:

Bachelor of Software Engineering

Philadelphia University, Balqa Governorate
September 2019 - July 2024

University Graduation Project: Al-Madina

- Developed a mobile app for complaint submissions, similar to the Greater Amman Municipality's platform, with privacy-focused features.
- Technologies Used: Flutter, Firebase.

Orange Coding Academy Internship — Full-Stack Developer (2024)

- Completed a 4-month intensive full-stack development internship.
- Developed a 'masterpiece' website as a capstone project using PHP, Laravel, React, HTML, CSS, and JavaScript [Masterpiece project](#)
- Gained hands-on experience in full-stack development with frontend and backend technologies.

Languages: Arabic: Native | English: Intermediate

Work Experience

While pursuing my Software Engineering degree, I worked various part-time jobs to support myself, gaining life and administrative skills such as time management, communication, and leadership. These experiences taught me resilience and adaptability, contributing to my growth as a professional.
